

Battle Automobile Company

Mount Pleasant, Michigan

MR. CAR BUYER:

There are two vital points to consider in the purchase of a motor car. The car—and the concern with which you deal.

Past performance is convincing proof that a Buick investment returns bigger dividends in the form of comfort, convenience and all-around service than any car you can select.

The well established reputation of the Battle Automobile Company for square dealing, for giving the buyer his money's worth plus, both in the product sold and service after sale, is the best evidence that your interests are safe with this Company.

The same principles of construction that have so pleased our Buick owners in the past are adhered to in the new 1921 models. Important improvements have, however, been made in the body design and mechanical units that place the Buick still farther ahead in the motor car field. We offer you in the new Buick sixes beauty, luxury, refinement, quality to a degree heretofore unknown.

The Buick Valve-in-Head Motor—always recognized as a most highly perfected unit—is now capable of even greater service without extraordinary demands on the driver for adjustment or attention.

Seven new models make up the Buick 1921 line—a 7-passenger open car, large 4-passenger coupe, 4-passenger coupe, 5-passenger sedan, 3-passenger open car, 5-passenger open car, 7-passenger sedan.

Let us show you the new Buicks and explain their many exclusive points of merit.

Yours for service,

BATTLE AUTOMOBILE COMPANY

Certain-teed Roofing is Spark-Proof

Certain-teed will protect your property against fires due to sparks dropping on the roof from passing engines. It also helps to prevent fires spreading from building to building by means of sparks and burning embers.

Where fires have started in other parts of the building, Certain-teed Roofs tend to smother them and thereby prevent serious damage to other property.

This type of protection is appreciated by all property owners and particularly by those who are outside of the zone of adequate fire-fighting apparatus.

But Certain-teed Roofing is more than an aid in the prevention of fire. It also protects from rain or snow and is guaranteed for five, ten or fifteen years, according to weight.

It costs less to buy, less to lay and less to maintain than any other type of good roofing.

See a Certain-teed dealer about roofing. If he can't fill your entire order from stock, he can get what you want quickly from a nearby Certain-teed distributing center.
